WORK EXPERIENCE

15/09/2025 – CURRENT Addis Ababa, Ethiopia

SYSTEM ADMINISTRATOR SELAM CHILDREN VILLAGE

- Set up, configure, monitor and maintain servers, workstations, operating systems and business software, keeping them secure, stable and up to date.
- Deploy web applications, databases and updates to production servers and troubleshoot deployment issues to keep services available.
- Manage user accounts, access rights and permissions to protect data and ensure staff have the right level of access.
- Administer and secure the organization's network, including LAN/Wi-Fi, internet connectivity, firewalls and shared resources.
- Monitor system performance and availability, diagnose faults and resolve hardware, software and network incidents quickly.
- Plan and run regular data backups and recovery procedures to guarantee business continuity.
- Apply security patches and antivirus/anti-malware protection, and enforce IT security policies against intrusions and data loss.
- Support and train staff; maintain IT documentation and inventories.
- Plan and implement system upgrades and new digital solutions.

10/02/2017 – 09/2025 Debre Birhan, Ethiopia

LAND INFORMATION SYSTEM TECHNICIAN NORTH SHOA LAND DEPARTMENT

- Examined software and operating system problems and the programs used to computerize and network land cadastre data.
- Provided knowledge, advice and technical support on selected software and operating systems to organize the cadastre database and basic cadastre information.
- Enabled the use of a cadastral database while securing computers and ensuring backup data storage was maintained.
- Prepared training materials and manuals on the land management system software and trained stakeholders.
- Identified system and database problems, introduced new ideas, and troubleshot and maintained hardware and software.
- Provided analytics on the cadastre information system and protected it against virus and spyware attacks.
- Identified and analyzed methods to detect and prevent intruders who threatened the security of the cadastre information system.
